

A Report
on
Bridge Course
Session: 2023-24

Department of Education
Pattamundai College, Pattamundai
Kendrapara, 754215

REPORT

The department of Education started a bridge course programme for the newly admitted +3 1st year students for the academic session 2023-24. The primary goal of this course was to introduce students to foundational concepts in education that would help bridge the gap between their intermediate and undergraduate studies. The curriculum was designed to build a basic understanding of Indian philosophy in education and core psychological concepts like personality and mental health. The focus was on preparing students to adapt better to the academic demands of their future studies.

DEPARTMENT OF CHEMISTRY
ADD-ON-COURSE ON "FOOD & NUTRITIONS".
ACADEMIC SESSION-2023-2024

Syllabus

1. Human Physiology and Nutrition-(10 Periods)

a. Overview of anatomy and physiology (Digestive system, circulatory system, excretory system, endocrine glands).

b. Food science

(Concept of Nutrition, Relation of nutrition to health, Adequate nutrition, optimum nutrition and malnutrition, The emergence, scope and methodology of Nutrition as a Science Energy Metabolism, Basal and Resting metabolism, Total energy requirement and its modification under normal physiological and other stress conditions.)

c. Nutritional Biochemistry. -(10 Periods)

(Carbohydrates, Proteins, Lipids, Vitamins, Minerals, Fluid and electrolyte balance, Acid base-balance and electrolytes and disorders related to it.)

2. Functional foods, superfoods and bioactive compounds in food (12 Periods)

a. Functional foods

(Definition, Development of functional foods, benefits and sources of functional foods, effect of processing conditions and storage)

b. Nutraceuticals

(Nutraceuticals in traditional health science, definition, classification, food and nonfood sources, mechanism of action, Development of nutraceuticals and functional foods- process for developing, - preclinical and clinical studies, marketing and regulatory issues.)

c. Super foods

d. Bioactive food components and their role in therapeutics

(Examples- Omega 3 fatty acids, photochemical, antioxidants, carotenoids, probiotics)

e. Introduction to body detoxification (Definition, importance of body

Detoxification, natural foods involved in detoxification, plan for detoxification).

f. Fortified foods (Introduction to fortified foods, types of nutrients to add, steps involved in food fortification along with suitable examples- wheat flour, cereal products, milk and milk products, oil, rice, salt, biofortification)

3. Introduction to nutrition and dietics(08 Periods)

a. Basic Principle of meal planning

(Definition, principles involved in meal planning, factors affecting meal planning, recommended allowance, basis of allowance, energy allowance for various activities.

b. Basic principle of balanced diet

(Definition of S.I. units of calorific value of foods – bomb calorimeter. Respiratory quotient (R.Q) – definition, calculation of non-protein R.Q w.r.t carbohydrates and lipids. Measurement of energy expenditure by direct and indirect methods. Basal metabolic rate (BMR) – Definition, measurement of BMR by Benedict's Roth apparatus method. Factors affecting BMR. Specific dynamic action of food (SDA) – Energy requirement and recommended dietary allowances (RDA)

c. Nutritional counseling-

REPORT ON CAREER COUNSELING PROGRAMME

Date: - 02-08-2023

Time 11.30A.M.

A workshop on Banking & SSC preparation was jointly organized by IQAC, Department of Economics and Department of Commerce, Pattamundai College on 02-08-2023 in the Auditorium Hall of the College. This programme was specially designed for students of Commerce and Economics. As many as 76 students and eight teachers participated in the programme. The Resource Person of the seminar was Mr. S.P Mishra, Operation head, TIME, Bhubaneswar centre, Odisha. He has long experience of teaching in career oriented courses like Banking, SSC, Railways, Civil Services etc. Prof. Dillip Kumar Bhuyan, Principal of the institution gave welcome address. He welcomed the students, faculty members and resource person to the programme. Prof Sarbeswar Sahoo, Administrative Bursar, Dr S.K. Pradhan, IQAC Co-ordinator, Dr R.K Behura, HOD, History Mr Pradyumna Pradhan HOD Economics, Mr Ranjan Kumar Behera, HOD, Commerce were present in the programme. The IQAC Co-ordinator Dr Pradhan delivered the key note address about the topic Banking and SSC preparation and intention of organizing such career counseling programme. Prof Bhuyan gave his opinion about maintaining quality in career counselling programmes. The resource person Prof S.P Mishra elaborately discussed about various techniques to be adopted by the students to face the challenge of banking and SSC preparation. The programme was coordinated by Mr Subhasis Mishra, Mr. Saojakanta Nayak, Dr M.K. Nayak, IQAC member. The question answer session was long and the students were highly satisfied. Then vote of thanks was proposed by Mr Subhasis Mishra, IQAC member.

SEMINAR
ON
“EMPOWERING WOMEN IN THE
LABOUR MARKET: INSIGHTS FROM
THE 2023 NOBLE PRIZE IN ECONOMIC
SCIENCE”

Date: 09.11.2023

RESOURCE PERSON

Mr. Nitya Sundar Manik

**Asst. Professor in Economics, N.C Autonomous College,
Jajpur .**

Organised by

DEPARTMENT OF ECONOMICS

PATTAMUNDAI COLLEGE, PATTAMUNDAI

DIST-KENDRAPARA, ODISHA, PIN-754215

**PATTAMUNDAI COLLEGE NACC
REACCREDITED B GRADE
PATTAMUNDAI, KENDRAPARA, ODISHA.**

**A REPORT ON DEPARTMENTAL SEMINAR
ACADEMIC YEAR 2023-24
DEPARTMENT OF ECONOMICS
PATTAMUNDAI COLLEGE**

Name of the Activity: Seminar Topic: Empowering Women in the Labour Market: Insights from the 2023 Noble Prize in Economic Science Speaker Name: Mr Nityasundar Manik	Date: 9, November 2023 Duration- One Day Participants: Student – 79, Faculty - 6
Objective: <ol style="list-style-type: none"> To know the women participation in the labour market. How can women be empowered economically? 	Outcomes: <ol style="list-style-type: none"> Students came to know the importance of women's participation in the labour market. Students became aware of various means through which women are empowered economically.

Report of the Seminar: A seminar was organized by Department of Economics, Pattamundai College, Pattamundai on 9, November 2023 on the topic “**Empowering Women in the Labour Market: Insights from the 2023 Noble Prize in Economic Science**”. The said programme was chaired by Mr Dilip Kumar Bhuyan, Principal, Pattamundai College. Mr Pradyumna Pradha, Head, Department of Economics, welcomed the resource person to the seminar. Mr Subhashis Mishra, Lecturer in Economics, gave a key note on the topic. Mr Nityasundar Manik, Assistant Professor in Economics, N C Autonomous College, Jajpur, the resource person of this programme delivered a beautiful lecture on concerned topic by highlighting women's participation in labour market. Student and staffs from different departments had participated in this seminar. Finally the seminar was declared to be end after a vote of thanks by Mrs Rasmita Panigrahi, Lecturer in Economics, Pattamundai College.

Ref: Your Letter No.1297 dated 06.11.2023

Esteemed Sir/Madam,

I would like to express my sincere gratitude for the invitation. I am pleased to provide my consent to present a lecture during the departmental seminar of Economics with the theme "Empowering Women in the Labor Market: Insights from the 2023 Nobel Prize in Economic Sciences" scheduled for November 9, 2023. This is to inform you and request any necessary arrangements.

Date: 08.11.2023

Place: Jajpur

Yours Faithfully,

Nityasundar Manik,
Asst. Professor,
Department of Economics,
N. C. Autonomous College, Jajpur

Seminar on

“Empowering women in the labour market: Insights from the 2023 Noble prize in Economic Sciences”

Organised By: Department Of Economics,
Pattamundai College, Pattamundai

Date: 04-11-2023

AGENDA

- Guest on the dais
- Welcome address by HOD Mr. P. Pradhan
- Guest introduction by Mr. S. Mishra, Lect. in Economics
- Address by Principal
- Address by Resource Person
- Question – Answer session
- Vote of thanks by Mrs. R. Panigrahi, Lecturer in Economics

Empowering Women in the Labour Market: Insights from the 2023 Nobel Prize in Economic Sciences

Presented by

Nguzunawit Mwangi

Assistant Professor,
Department of Economics,
N. C. State University College, Hays

Presented at

Department of Economics, Pennsylvania State University,
University Park, PA 16802

Schedule of Presentation

1. A Brief Introduction of Nobel Prizes
2. What is the Nobel Prize in Economic Sciences?
3. Nobel Prize in Economics for 2023
4. Academic Profile of Claudia Goldin
5. Background and Motivation of her research
6. Defining the contribution of Nobel Laureate
7. Application of the Claudia's research for India
8. Critical Gender Gap Issues
9. Suggestions to improve Gender Parity

A brief Introduction of Nobel Prizes

- Alfred Nobel was a Swedish chemist, engineer, and industrialist most famously known for the invention of dynamite
- Awarded for (contributions) that have benefited the science (either in literature* in the areas of Physics, Chemistry, Physiology or Medicine, Literature, Economics and the promotion of Peace
- Usually, Sweden and prize except if it Peace Prize (Swedish Government Prize only)
- Presented by Royal Swedish Academy of Sciences (Physical, Chemistry and Economic Sciences), Nobel Assembly at the Karolinska Institute (Physiology or Medicine), Swedish Academy (Literature), Norwegian Nobel Committee (Peace)
- Research: A gold-plated green gold medal, a diploma, and a monetary grant of 11 million Swedish Kronor (about \$1 million) or award a cross (except)
- The Nobel Peace Prize can only be awarded to organizations of more than three individuals, despite the fact that prize sharing
- Nobel Prizes are not awarded posthumously

What is the Nobel Prize in Economic Sciences?

- The Nobel Prize in Economic Sciences was established in 1968 by the Sveriges Riksbank (the central bank of Sweden) in memory of Alfred Nobel
- Not one of the original Nobel Prizes
- It is officially called the Sveriges Riksbank Prize for Bank of Sweden Prize in Economic Sciences in Memory of Alfred Nobel
- The Prize recognizes individuals or organizations for their exceptional research, discoveries, or contributions that have advanced the understanding of economics and its application to real-world problems
- So far, a total of 55 Nobel Prizes have been awarded. Out of 93 laureates, 26 have had the honor of receiving this prestigious award as sole recipients
- First prize was given in 1969 to Royce J. Prosser and Jan Tinbergen (for having developed and applied dynamic models for the analysis of economic processes)
- Only two women, Esther Duflo in 2009 (for her analysis of economic governance, especially the commons) and Esther Duflo (for their experimental approach to alleviating global poverty) in 2019, have been recognized with the Nobel Prize in Economic Science
- Two Indian economists, Amartya Sen in 1998 (for his contributions to welfare economics) and Abhijit Banerjee along with Esther Duflo and Michael Kremer in 2019

Nobel Prize in Economics for 2023

Chandia Goldin

"For having advanced our understanding of women's labor market outcomes"

Chandia Goldin provided the first comprehensive analysis of women's earnings and labor market participation through the centuries. Her research reveals the causes of change, as well as the main sources of the remaining gender pay

Background and Motivation of her research

- Chandia Goldin provided the first comprehensive analysis of women's earnings and labor market participation through the centuries
 - Her research reveals the causes of change, as well as the main sources of the remaining gender pay
 - Women are still underrepresented in the global labor market and, when they work, they earn less than men. The persistence of women in paid work has turned a major high-income countries but significant gender differences remain
 - Key research questions about the role of Women in Economic
 - What historical causes of gender inequality performance of women in labor force
 - Why comparison of capabilities women's occupation as "wife" is holding back of women in working core of the business
 - Research motivation and overall presentation of women's work in Economics and Public class
 - importance of understanding such mechanisms from economists' research implying well-being allocation of half of the female population
 - adopted a comprehensive approach to capturing and understanding the role of women's labor in the labor market and
- Also, such main about the underlying factors and which factors may need to be addressed at the future

Academic Profile of Chandia Goldin

- Chandia Goldin (born May 14, 1968) is an American economic historian and labor economist
- Education: Cornell University (PhD, University of Chicago (M.A., Ph.D.)
- She is the Henry Lee Professor of Economics at Harvard University. She is a co-director of the NBER's Center on the Economy, Study Group and was the director of the NBER's Department of the American Economy Program from 1997 to 2017
- She was the president of the American Economic Association in 2017-18 and the president of the Economic History Association in 1999-2000
- awards: 2023 Nobel Prize in Economics (2023), Royal Prize (Nobel Prize in Economics) (2022)
- List of Books Published
 - Understanding Gender Gap: An Economic History of American Women (W.W. Norton)
 - The Race Between Education and Technology (MIT, 2020)
 - Women Working Longer: Increased Employment as Older Ages (2018)
 - Gender and Growth: Women's Economic Long Journey (small figures) (1997-2017)

- By combining innovative methods in economic history with an economic approach, Goldin has demonstrated that several significant factors have historically influenced – and still influence – the supply of and demand for female labor
- These include women's opportunities for combining paid work and a family, decisions relating to education and childbearing, technical innovation, laws and norms, and the structural transformation of the economy. In turn, her results have enabled a better understanding of how and why rates of employment and pay differ between women and men.
- Her research has given us new and often surprising insights into women's historical and contemporary roles in the labor market.

The 1-1/2-Step Study

- Ogburn showed that women's historical participation in the US labor force could be described using a 1-1/2-step curve for the two-hundred-year period from the end of the eighteenth century
- Historical economic growth was closely tied to the growth of the labor force; demonstrated that there is an historical connection between women's participation in the labor market and economic growth

Marriage Barriers:

- Ogburn argued that separation between the "marriage bars" often prevented married women from continuing their employment as teachers or office workers
- Despite an increasing demand for labor, married women were excluded from parts of the labor market
- It was proved during the 1980s Great Recession the importance of expectations
- **The importance of expectations and Career Choices:**
- In the early twentieth century, most women were very expected to work for a few years prior to marriage and then to exit the labor market upon marriage, which influenced their educational choices.

- Historical Perspective: Before industrialization, women were more likely to be involved in economic activities related to agriculture and cottage industries
- However, with the rise of industrialization and factory-based work, women faced difficulties leaving their homes to work. Many unmarried women were employed in manufacturing during the industrial era
- Technological progress, the growth of the service sector, and increased levels of education (through an increasing demand for female labor)
- However, social stigma, regulations, and other institutional barriers limited the influence of these factors
- Marriage played a greater role than had previously been believed as there was a significant difference in the employment rates of married and unmarried women. While around 20% of all women worked for pay, only 5% of married women did so

- Women's expectations about their future careers played a significant role in the Ogburn Era. **True**
- Women's career decisions were influenced by the expectations of their mothers, leading to choices that did not necessarily maximize long-term financial and social utility.
- In the second half of the twentieth century, societal changes meant that married women often returned to the labor force once their children were able.
- Women who demonstrated their needs, they would work, expectations and behaviors did not start to change until the 1970s.
- The wife tax women often left the labor force for an extended period after marriage due to higher taxes on the wife's employment level for women employed by her kids, despite the massive influx of women into the labor market in the latter half of the twentieth century.
- Historical evidence shows that income encouragement didn't in itself lead to high female salaries, women generally have a higher level of education than men.

Role of Government Policy

- The provision of services for women workers falls to the end of the 19th century support to improve women workers' health, both for their own benefit and for their families
- The role of government includes support for low, minimum, and minimum and raising women's health requirements

Historical variations in pay and benefits

- Despite improvements in education and employment opportunities for women, a significant gender-based pay gap persisted due to job discrimination
- Initial earnings differences between men and women were small. However, they became more pronounced as women's earnings fell, and they did not receive the same rate as men's earnings even if they had similar education and experience
- The persistent earnings gap was consistently downward as time of the 19th century based on a woman's wage which widened the pay gap between men and women. The employers tended to benefit employees with long and unintermittent careers

A glimpse of the future

Addressing these shortcomings a multi-faceted approach, including:

- Advocating for and securing comprehensive anti-discrimination legislation
- Challenging and changing societal norms and stereotypes through education and mass media campaigns
- Empowering women and diversity in workplaces and organizations
- Ensuring equal access to education and healthcare for all genders
- Supporting organizations and initiatives that work to close the gender gap

Gender showed that the traditional labor force participation rate was not just a function of women's characteristics, when many factors explain employment to be somewhat smaller and female in the labor force of the employee's demand.

Whether the U-shaped analysis best good for the middle income countries that have?

- Gender's most famous result - The U-shaped labor force for women - holds for middle income in the middle portion of the labor force, which explains the distinctive labor force participation rate

U-shaped Labour Force Participation Rate Curve For Rural & Urban Women

Figure 1: The gender gap in labor force participation rate in India

8

9

- India's higher education enrollment among women was higher than India in 2000-21, but their labor force participation rate was 24.2%, less than half of their male counterparts
- The national women's labor force is still the fifth and sixth with an average (addition of women) in the United States, women dropped out of the workforce after marriage. The one of the main consequences of delayed women to delay marriage and childbirth, resulting in their reduced participation in the workforce in relation to marriage, poverty, a labor force
- Labor showed that the wage gap can be reduced by the capacity of women to invest in higher (long) qualifications and processes within establishments, rather than only education
- The status of women stay for suboptimal because of the way the data are collected. If women have not worked in the last day of the year, then they are not counted as a woman by the national labor force survey

- India's rank in labor force 2021 and 2022
- Global Gender Index 2021 - 140
- Global Gender Index 2022 - 135
- The overall score has shown improvement from 65.3 (2021) against 67.9
- The gender gap in the difference between women and men is reduced in social, political, educational, cultural, in education, attainment of standards

Global Gender Gap Index

- Prepared by World Economic Forum since 2006
- Focus on four dimensions based on which the Global Gender Index measures the performance of the countries:
 1. Economic Participation & Opportunity
 2. Education Attainment
 3. Health and Survival
 4. Political Empowerment
- **Key Highlights of COVID-19's (2020)**
 - It will take 136.6 years to close the gender gap worldwide. In some Global Gender Forum, the average industry standard is 48 years
 - It will take 147.5 years to close gender parity in Africa. The biggest gender gap in the political empowerment dimension. Only 22 states of the globe are ahead or lag
 - It will take 207.0 years to complete the gender gap in economic participation and opportunity. 76% of the gender gap closed
- 142 years to close the gender gap in the dimension of education attainment

Suggestions to Improve Gender Parity

1. **Empowerment through Education**
 1. Promote girls' and women's access to quality education
 2. Provide scholarships and incentives for female students
 3. Incentive programs to reduce the dropout rate among girls
2. **Economic Empowerment**
 1. Encourage women's participation in the formal labor market
 2. Incentive policies for equal pay for equal work
 3. Promote entrepreneurship and skill development for women
3. **Healthcare and Reproductive Rights**
 1. Improve access to healthcare services, especially in rural areas
 2. Promote family planning and reproductive health education
 3. Address issues related to maternal mortality and infant
4. **Legal Reforms**
 1. Strengthen laws against gender-based violence and harassment
 2. Enforce laws related to property and inheritance rights for women
 3. Promote legal literacy among women
5. **Political Participation**
 1. Encourage women's participation in politics and decision-making roles
 2. Implement reservation policies for women in local and national governance bodies
 3. Raise awareness about the importance of women in leadership positions

1. Changing Social Norms

1. Conduct awareness campaigns to challenge gender stereotypes and biases
2. Promote gender equality and respect for women's rights in schools and communities
3. Encourage men and boys to take on the fight for gender equality

2. Safety and Security

1. Enhance the safety and security of women in public spaces
2. Strengthen the police and judicial response to gender-based violence
3. Promote technology-based solutions for women's safety

3. Supportive Policies

1. Implement maternity and paternity leave policies
2. Create childcare facilities and support systems for working parents
3. Support women returning to the workforce after career breaks

4. Access to Technology

1. Promote digital literacy and training programs for women
2. Encourage women's access to digital and financial technologies

5. Data Collection and Research

1. Collect and analyze gender-disaggregated data to monitor progress
2. Support research on gender-related issues to inform policies and interventions

6. Cross-sectoral and Partnerships

1. Encourage collaboration between government, NGOs, and private sectors to address gender disparities
2. Seek strategic support and partnerships for gender equality initiatives

Thank You

ACADEMIC YEAR - 2023-24

Department of Botany, Pattamundai College

Name of the Activity: Field visit to Gram Uthhan
NGO, Rajkanika, Kendrapara
Date: 20.01.2024

Duration- One Day
Participants: Student 34 Nos.
Faculty – 3Nos

Learning Objective:

1. To help students to aware about agricultural technologies.
2. To inform students about the necessity of nutritious food and organic farming etc..
3. To provide information on types of traditional cultivation.
4. To provide facilities to students for great exposure.
5. To provide scope to learn about the process of vermicomposting and Azolla culture

Learning Outcomes:

1. Students learnt on different agricultural technologies
2. Students knew the importance of nutritious food and organic farming
3. They gained knowledge on types of traditional cultivation
4. Students acquainted themselves with the obstacles and challenges of exposure to outside
5. Students learnt the process of vermicomposting and Azolla culture

Report of the Event: A field visit was organized on dt.20.01.2024 by the Department of Botany, Pattamundai College, Pattamundai to Gram Uthhan NGO which is present at Rajkanika of Kendrapara district of Odisha. The spot was nearly 25 kms away from Pattamundai. 30 students were participated in this visit along with the staffs of the Department. Mr. Govinda Chandra Dash, Secretary and Founder of this organisation welcomed us and informed us the motto of this NGO from different angles. Subject matter specialist Mr. Rabindra Sahoo gave a detailed information on fish breeding techniques. Mr. Pradip Nayak interacted with the students and gave information on agricultural technologies. Students learnt the methods involved in the organic farming and types of traditional cultivation. Interaction session was held with the students and they gained a lot of information from the about various techniques and methodologies that are carried in modern agriculture. They also learnt on the process of vermicomposting and Azolla culture. At last we returned back to Pattamundai at 4.30 p.m. and reached our destination at 4.30 p.m. It was a memorable journey for all of us.

A field Visit

by

Department of Mathematics
Pattamundai College, Pattamundai

12th January 2024

Report

A field visit programme was conducted by Department of Mathematics, Pattamundai College, Pattamundai on 12 January 2024 to NISER, Bhubaneswar and IIT, Bhubaneswar. The students of this department show a great interest to visit to National Level Institution at Bhubaneswar particularly the School of Mathematics and Basic Science. In this context the Principal and Head of the Department decided to arrange a field visit to these institutions for the students of Department of Mathematics. A team comprising of 34 students and 02 faculty members who started their journey from college campus at 6.00 am on the stipulated date. The team was headed by Sri A. Pandab, HOD Mathematics. The visit consists of two parts, the 1st part from 10.30AM to 1.30 PM, the students visited NISER, Bhubaneswar and in the 2nd part from 2.30PM to 5.30 PM they visited IIT, Bhubaneswar.

1. NISER, Bhubaneswar.

They reached at their destination point at 10.30 AM. First they reached the School of Mathematical Science, NISER. Chairperson, School of Mathematical Science(SMS) Prof Brundaban Sahoo welcomed the team members. Then students and faculty members visited the seminar hall where the faculties of SMS Dr Binod Kumar Sahoo, Dr Sudhir Pujari, Dr Kamal Lochan Patra and other research fellows interacted with the students regarding future prospects for the UG students of Mathematics. Then

they visited the computer laboratory of SMS followed by visit to central Library. They search different journals, books written by scientists.

2. IIT, Bhubaneswar

They reached the campus of IIT, Bhubaneswar at 2.30 PM after taking their lunch . First they reached at School of Basic Science, IIT where the Associate Professor, School of Basic Science(SBS) Dr Tarakanta Nayak welcomed the team members to their institution . Then students and faculty members visited the seminar hall where the faculties of SBS Dr Akash Asirbad Panda and other research fellows interacted with the students regarding future prospects for the UG students of Mathematics and visited the computer laboratory. After that the team members visited central Library to search different journals, text books. The students devoted major part of their time in the central library and get acquainted themselves with teaching learning process of the IIT. In the last part of the event the students visited the entire campus of IIT to have an idea about different departments.

Name of the Activity: A Field Visit Programme Date: 12.01.2024 Organisation Name: NISER, Bhubaneswar IIT, Bhubaneswar	Duration: One Day Participants: Student (34 Nos)and Faculty (02Nos)
Learning Objective: <ol style="list-style-type: none"> To acquire knowledge through field visit experience. To change the learning environment into an open and inviting dynamic environment outside the college classroom. To gain knowledge about Mathematical teaching in National; level institute. To know about the financial assistance and eligibility test to pursue higher education in Mathematics. 	Learning Outcomes: <ol style="list-style-type: none"> The students are able to cope with relevant problems, applying tools from diverse fields. Learned about various methods of Mathematical teaching. They got 1st hand knowledge of teaching learning facilities at NISER & IIT. The students got career counselling for higher studies in Mathematics.

Dear Prof. Bhuyan,

Thank you very much for the letter. Director, NISER has approved the visit.
 Kindly plan for the visit.

Regards,
 Brundaban
